

Public Information on Wood Waste Options Updated Wednesday 9/17/08

The most important thing we must remind residents of is to be CERTAIN in removing debris that there are no electric wires involved. If there are they should call Ohio Edison or the fire department for an evaluation.

When having trees removed from your property by someone else, you should also be sure that workers are bonded and insured. Reputable workers do not ask for advance payment.

THREE local places will accept all natural wood waste for NO CHARGE- we should steer residents there first!
